

# Roof Sheeting Product Brochure

## ASA-PVC ROOF SHEETING (IBR 2mm)

- Weather proof, long lasting color ability. Excellent heat insulation. Endure hail and strong winds. Renowned for being corrosion resistant and therefore widely used for various manufacturing companies. ASA PVC roof sheeting became a popular choice due to durability, versatility, and cost-effectiveness.
- Stability in corrosive environment
  - Highly Stable
  - Service Life
    - 10 - 30+ Years
  - Tensile Strength
    - 28 Mpa
  - Flexural Strength
    - 50 Mpa
  - Bending
    - Easy
  - Combustibility
    - Not Combustible
  - Thermal Conductivity
    - 0.071 W/m.K
  - Colour lasting time
    - 10 - 15 Years
  - UV Protection
    - Excellent
  - Weight per square meter
    - 4.8 Kg
  - Cost of Roofing Structure
    - Medium
  - Sound Insulation
    - Good
  - Heat Insulation
    - Good
  - Anti-Corrosion Ability
    - Excellent
  - Efficiency
    - 94%
  - Transportation
    - Safely/ Lightweight/ Low Cost
  - Installation
    - Fast/ Easy to cut/ Low Cost
  - Overlap
    - Wide/ Fewer Overlaps/ Length customizable
- Green & Environment Friendly
  - Green Product/ Fully Recyclable
